Dear Instructor;

I am very delighted to announce to you the release of the Portland Historical Tour Website, ready to use.

You may browse your website at this URL:

http://sws.pcc.edu/student/CAS206_rocco.charamella_30791/alirezabarzinzanga43/final_project/index.html

I made those changes you wanted as below:

- Please add our address to the site so that it shows up on every page in the site in the same location.
 - I add your address in every page of the website in the footer.
- Our in-house SEO expert says that the home page link would be better named Portland Tours. Please change the Home link text to Portland Tours.
 - They are changed to Portland Tours.
- Please make the Portland Historical Tours logo on all pages, link to the home page of the site.
 - Your logo, now, is a link to the home page.
- Please move the labels closer to the form fields in the Buy a Ticket page. I'd like right side of the labels to be close the left edge of the form fields.
 - Now, your forms are well aligned and easy to relate each field to its label.
- The header breakdowns at mobile screen sizes (below 768px).
 - It is fixed and now, it responds responsively to the different screen sizes, as you mentioned in your feedback.

- You should use a contact form instead of email hyperlinks. Most people do not have an email client configured to handle email hyperlinks because they use a webmail service like Gmail or yahoo.
 - I add a Contact Form under the hyperlinks to make it easier for customer to contact us, as you mentioned in your feedback.
- Your communication includes a fictitious URL. If we were developing the site for a client, I would hope we would use a development URL, not the actual site URL. For instance, dev.portlandhistoricaltours.com. For this example, I wanted you to use the actual URL from the SWS server.
 - In this letter, as you see, I used the real link to the sws.pcc.edu, as you mentioned in your feedback.

If there are any questions or concerns about this website, or you feel to make a change, please don't hesitate to contact me immediately. You can find me easily by email at:
